14. Troubleshooting & FAQ

1. Introduction & Purpose

This Standard Operating Procedure (SOP) document provides comprehensive guidance for the use, management, and administration of the Media & Public Communication Portal developed for the Uttar Pradesh Police Department.

The portal is a centralized web-based application designed to streamline the creation, approval, and distribution of official press releases, public notices, media assets, announcements, and AI-generated content across multiple social media platforms.

Objectives

- Provide a single platform for all media-related operations
- Ensure consistent and professional communication across all channels
- Enable AI-powered content generation for rapid response
- Maintain sensitivity and redaction standards for public safety
- Track contact inquiries and maintain audit trails

2. System Requirements

Browser Compatibility

- Google Chrome (v100 or later) — Recommended
- Mozilla Firefox (v100 or later)
- Microsoft Edge (Chromium-based, v100 or later)
- Safari 15 or later (macOS/iOS)

Network

- Stable internet connection (minimum 2 Mbps)
- Access to the portal URL provided by the IT department

Device

- Desktop / Laptop — Fully supported
- Tablet — Supported (responsive layout)
- Mobile phone — Limited support for viewing; content creation recommended on desktop

3. Login & Authentication

Access to the portal is restricted to authorized personnel only. Each user receives credentials from the System Administrator.

Login Steps

Step 1: Open the portal URL in your browser.

Step 2: Enter your registered email address in the "Email" field.

Step 3: Enter your password in the "Password" field.

Step 4: Click the "Login" button.

Step 5: Upon successful authentication, you will be redirected to the Dashboard.

Theme & Language on Login Page

The login page provides options to change the language (English / Hindi) and toggle between Light and Dark themes using the buttons in the top-right corner. This preference is saved in your browser.

Registration

New users can register via the "Register" link on the login page. However, account activation and role assignment must be done by an Administrator.

Note: After 3 failed login attempts, the account may be temporarily locked. Contact your administrator.

4. Dashboard Overview

After logging in, the Dashboard is the first screen you see. It provides a high-level summary of all portal activity.

Statistics Cards

- Total Press Releases — Count of all press releases in the system
- Total Notices — Count of public notices
- Total Media Items — Photos, videos, and documents uploaded
- Total Announcements — Broadcast messages
- Total Contacts — Inquiries received from the public
- Total Users — Registered portal users

Highlights Section

- New (unread) contact inquiries
- Currently active announcements
- Published press releases count
- Active public notices

Charts

- Monthly Activity Bar Chart — Shows press release trends over the last 6 months
- Contact Status Pie Chart — Breakdown of contact inquiries by status

Quick Actions

The Quick Actions bar provides one-click shortcuts to: AI Media Studio, New Press Release, and Broadcast Announcement.

5. Press Releases Management

Press releases are the primary method of official communication. This module allows you to create, edit, publish, and archive press releases.

Viewing Press Releases

Step 1: Click "Press Releases" in the left sidebar.

Step 2: Use the search bar to find specific releases by title or keyword.

Step 3: Use the status filter dropdown to view Draft, Published, or Archived releases.

Creating a New Press Release

Step 1: Click the "+ New" button in the top-right corner.

Step 2: Fill in: Title, Content (rich text), Category, and Status (Draft/Published).

Step 3: Optionally attach a cover image.

Step 4: Click "Save" to store the press release.

Status Workflow

- Draft — Not visible to the public; work in progress
- Published — Live and visible; can be shared
- Archived — Hidden from active listings; retained for records

Note: Only users with Editor or Admin roles can publish directly. Others must save as Draft for review.

6. Public Notices Management

Public notices are official advisories, alerts, or informational notices issued for public awareness.

Creating a Notice

Step 1: Click "Public Notices" in the sidebar.

Step 2: Click "+ New Notice".

Step 3: Fill in Title, Content, Priority (Normal/High/Urgent), and Expiry Date.

Step 4: Set status to Draft or Published.

Step 5: Click "Save".

Priority Levels

- Normal — Standard advisory; displayed in default styling
- High — Highlighted with amber warning indicator
- Urgent — Displayed prominently with red alert styling

Note: Notices with an expiry date will automatically move to "Expired" status after the date passes.

7. Media Gallery

The Media Gallery is a centralized repository for all photos, videos, and documents related to police operations and events.

Uploading Media

Step 1: Click "Media Gallery" in the sidebar.

Step 2: Click the "Upload" button.

Step 3: Select file(s) from your computer. Supported formats: JPG, PNG, MP4, PDF.

Step 4: Add a title and description for each file.

Step 5: Click "Upload" to save.

Guidelines

- Maximum file size: 10 MB per file
- Ensure images do not contain sensitive or identifiable information of victims
- Videos should be compressed before uploading for optimal performance
- Add descriptive titles for easy searchability

8. Announcements / Broadcasts

Announcements are time-bound broadcast messages used for internal communication or public alerts.

Creating an Announcement

Step 1: Click "Announcements" in the sidebar.

Step 2: Click "+ New Announcement".

Step 3: Fill in Title, Message, Type (Info/Warning/Alert), and set Active/Inactive.

Step 4: Click "Save".

Best Practices

- Keep announcements brief and action-oriented
- Use "Alert" type only for genuine emergencies
- Deactivate announcements once the event has passed

9. Contact Inquiries

The Contact module tracks all incoming inquiries, complaints, and feedback received from the public through the portal.

Managing Contacts

Step 1: Click "Contacts" in the sidebar to view all inquiries.

Step 2: Click on any entry to view full details.

Step 3: Change the status as you process the inquiry: New !' Read !' Replied !' Closed.

Status Definitions

- New — Unread inquiry; requires immediate attention
- Read — Viewed but not yet responded
- Replied — Response sent to the inquiry sender
- Closed — Issue resolved; no further action needed

10. AI Media Content Generator

The AI Media Studio is the most powerful feature of this portal. It uses Google Gemini AI to automatically generate professional, multi-platform media content based on incident details you provide.

How to Use

Step 1: Click "AI Content Generator" in the sidebar under Content.

Step 2: Fill in the Incident Details: Type, Date, District, Location, Officer Name, Description, and Key Facts.

Step 3: Configure generation settings:

- Language — Hindi Only, English Only, or Both
- Tone — Official (formal), Alert (urgent), Awareness (educational), Achievement (celebratory)
- Sensitivity — High (redact names/FIR), Medium (redact victim info), Low (public safe)

Step 4: Select the target platforms: Press Release, WhatsApp, Facebook, Twitter, SMS.

Step 5: Click "Generate AI Content".

Step 6: Review the generated content for each platform in the output panel.

Step 7: Click the "Copy" button on any card to copy text to clipboard for sharing.

Important Guidelines

- ALWAYS review AI-generated content before publishing or sharing
- Verify all facts, names, and figures manually
- For High Sensitivity incidents, double-check that all names are properly redacted
- The AI output is a DRAFT — final approval must come from the designated PRO

Note: The AI Content Generator requires a valid Google Gemini API Key configured by the administrator.

11. User Management (Admin Only)

This section is accessible only to users with the "Admin" role. It allows management of all portal user accounts.

User Roles

- Admin — Full access to all features including user management
- Editor — Can create, edit, and publish content; cannot manage users
- Viewer — Read-only access to published content

Managing Users

Step 1: Click "User Management" in the sidebar (under Management).

Step 2: View the list of all registered users with their roles and status.

Step 3: Click on a user row to edit their role or deactivate their account.

Note: Removing admin access requires confirmation from another admin for security.

12. Theme & Language Settings

Theme Toggle

The portal supports two visual themes: Light and Dark. You can switch between them using the sun/moon icon button in the header bar (after login) or on the login page itself.

- Light Theme — Default; white backgrounds, ideal for well-lit environments
- Dark Theme — Dark backgrounds; reduces eye strain in low-light conditions

Your theme preference is saved in your browser and persists across sessions.

Language Toggle

The portal supports English and Hindi. Use the "EN/HI" toggle button in the header to switch languages. All labels, headings, and system messages will update accordingly.

13. Security Guidelines

- Never share your login credentials with anyone
- Always log out after your session, especially on shared computers
- Use strong passwords: minimum 8 characters with uppercase, lowercase, numbers, and symbols
- Report any suspicious activity or unauthorized access immediately to the IT Cell
- Do not download or share AI-generated content outside official channels without approval
- All portal activity is logged and subject to audit
- Access the portal only from authorized networks and devices

14. Troubleshooting & FAQ

Q: I forgot my password. What should I do?

Contact the System Administrator to reset your password. Self-service password reset may be available in future updates.

Q: The page shows "Session Expired" and logs me out automatically.

Your authentication token has expired. Simply log in again. If the issue persists, clear your browser cache and cookies.

Q: AI Content Generator shows an error.

This is likely due to a missing or invalid API key. Contact the administrator to verify the Gemini API Key is correctly configured in the backend environment.

Q: Uploaded images are not displaying.

Ensure the file size is within the 10 MB limit and the format is JPG or PNG. If the issue persists, check your network connection and try again.

Q: I cannot see the User Management section.

User Management is restricted to Admin-role users only. If you require admin access, contact your department head.
